LAWYER SAYS FRANK'S ASSAILANT IS INSANE

Statement of Attorney Who Defended
Convict in Trial for
Murder.

William Green, who cut Leo Frank's throat in the Georgia prison late Saturday evening, inflicting a wound that may prove fatal, is insane, according to Thomas H. Shanks, a lawyer of Columbus, Ga., who is here visiting the homefolks. Mr. Shanks defended Green when he was tried for a murder committed on the streets of Columbus in 1912. The murder was unprovoked, Mr. Shanks said, and was the act of an insane man. Green was driving down the street, and, probably thru accident, drove up on the sidewalk. Three men standing nearby witnessed the accident and one of them laughed. A few minutes later Green walked back to where the man was standing, and, apparently, a vile epithet to the three, asked which one had laughed at him. One of the men remonstrated with Green about the language he had used, and without warning Green drew a revolver from his pocket and killed the man. Mr. Shanks said that he was employed by the construction company and while working with a crew operating a steel crane, he was caught in the machine and hurled a considerable distance. In falling he suffered a severe injury about the head, and although he recovered, a deep indentation was left in the head almost large enough for one to place his finger. Mr. Shanks said that, in addition to the man killed by Green on the streets of Columbus and for which he was sent to the State prison for life, Green had killed one or two other men. Mr. Shanks says the man in unquestionably insane.

Obituary of Oscar Elmore Banks.

The following is taken from the Big Stone Gap, Va. Post. Deceased married a daughter of W. R. Willis of this city:
Oscar Elmer Banks was born in Lee County, Virginia, on October 31, 1887. He resided in Olinger, Va., during the early part of his boyhood days, and started to school there in 1896. In 1899 the family was removed to Harvey, Va., where his father was store manager for an Iron Ore Mining Company. In 1900 the family moved to Big Stone Gap, Va., where he attended the public school. He was married to Laura N. Willis on May 14, 1908. They resided at Big Stone Gap until 1909. He was in the employ of the Virginia and Tennessee Telephone Co., which company removed him to Norton, Va., in 1909. After a year in Norton, Va., the Telephone Company transferred him to Abingdon, Tenn., in 1910, as District Manager there. He resided in Abingdon until his death, which occurred on July 5th, 1915, at 8:15 a. m., in the Abingdon Hospital. He had gone to the hospital on Saturday before his death. His death was quite sudden and a surprise to all even the doctors did not realize that the end was so near. A leakage of the heart caused his death.
He was a good, kind, and loving father, husband and brother, and that more could be said of anyone. He had a heart as big as the Big Stone Gap, Norton, Abingdon, and in fact everywhere that he went and was known, he made friends. He was an employee of the Virginia and Tennessee Telephone Company for about 12 years.
Funeral services were held in the Methodist church, South, Abingdon, on Tuesday afternoon, July 20th, at 2 o'clock, conducted by Rev. S. B. Vaughn, assisted by Rev. E. F. Kahle. The Abingdon Nest of Owls, of which the deceased was a member, took charge of the remains after the services and buried them in the Spring Springs Cemetery, Abingdon. It was the request of the deceased that he be buried at that place.
He is survived by his wife, a baby boy, eight months of age, a baby girl two and one half years of age, his mother, four brothers and one sister. We extend our heartfelt sympathy to them all in their bereavement.

MT. HEBRON.

We are having some nice weather now. Mrs. Barbara Cook is real sick. Mrs. Lilly Adams who has been ill is some better at present.
Mrs. Sarah Petrey and Miss Carlette Johnson have just returned from Somerset where they have been with their mother. Mrs. J. H. Johnson. She is at the hospital and is getting along nicely after an operation. Mrs. Johnson has been in bad health for quite a while, having been at the hospital for nearly a month. Her daughters say that if she improves, she will soon be able to come home again. We are all hoping that such may be the case.

Points a Moral.

Miss Nina Stinson, of Mayville, found the name of J. W. Faught, Andrews, Ind., in a new kitchen cabinet purchased by her family. She wrote to Faught as requested and this week they were married. The moral of this story is that by helping her mother around the kitchen Nina picked up a husband. Sissy, do you see the point?—Danville Messenger.

For Secretary of State.

Col. W. P. Walton, of Lexington, was here Saturday in the interest of his candidacy for the Democratic nomination for Secretary of State, kind and cordial reception. We have been anxious to refer to Col. Walton's candidacy and to commend him to our people as a sterling Democrat of the strictest integrity and honor, the highest qualities as a business man, and the fullest capabilities of discharging the important duties of the office. Voters should not fail to remember him when they mark their ballots in the primary. This is an office that is of as much importance to a successful business administration of the State as the Governorship. It is a position of great responsibility, and the people have paid in the past, with the assessing and taxing powers of the State and the production of the proper amount of revenue from the big corporations that are always seeking to escape their just share of the expense of government. Strangely, in the former elections, the people have paid in the past, with the assessing and taxing powers of the State and the production of the proper amount of revenue from the big corporations that are always seeking to escape their just share of the expense of government. McCHESNEY SPEAKS TO SPLENDID AUDIENCE

Courthouse is Packed and Jammed
Wednesday Night To Hear Temperance Candidate for Governor

The finest and most representative audience that has gathered in the Lincoln county courthouse in a number of years was present on Wednesday night when Hon. H. V. McChesney, of Frankfort, spoke here on behalf of his candidacy for the Democratic nomination for governor. Every seat in the house was filled, and the main auditorium and the main gallery, and standing room was at a premium. The judge's rostrum was crowded with chairs and about a hundred were standing around to get seats. It was truly a splendid audience and a great tribute to the man and the cause for which he is waging.
The audience was made up of leading democrats, too, from every section of this and neighboring counties. About a dozen automobiles were parked in front of the courthouse during the speaking. Delegates were here from all over Lincoln county, three auto loads from Wayneburg, several from Hustonville and Crab Orchard. Col. James L. Hamilton led a delegation over from Lancaster, while Ernest Frank and a bunch of Boyle county democrats came over from Danville. It was a great crowd in every way and a worthy and deserved tribute to the man.
Although he had arrived at four o'clock Wednesday morning to catch a train out of Buena Vista, and had made three speeches that day, Mr. McChesney was in fine fettle and made one of the strongest and most convincing arguments ever heard from a public rostrum in this city. He pitched his main theme on his demand that the people be given the right to vote on state-wide prohibition, and made a telling address from start to finish. Newly every man who heard him, there is no slight, he made an argument that was absolutely unanswerable, and one that made him votes and friends wherever he might appear. Many who heard him and who were not for him declared that with such a man and such an issue, there is no slight, he made an argument that was absolutely unanswerable, and one that made him votes and friends wherever he might appear. Many who heard him and who were not for him declared that with such a man and such an issue, there is no slight, he made an argument that was absolutely unanswerable, and one that made him votes and friends wherever he might appear.

The Danville Fair.

The crowds that attended the Danville Fair Wednesday and Thursday were not what they should have been, owing, no doubt to the busy season that the farmers are now experiencing. There was never a better time to save hay and kill weeds and the sturdy farmer is taking advantage of the opportunity while the days are bright and cool. The show of stock is not great but the quality is high. Lincoln county people, as usual, are attending and have a good deal of stock on the grounds. M. S. Baughman, Jr., made four shows with his ponies and took four red ties. Jim Woods made five shows with his mules and carried out three blue and two red ribbons. From the number of people that are attending the fair from Stanford today one would judge that a good crowd is in attendance.

On last Wednesday afternoon the members of Dixie Rook Club entertained in honor of Miss Lucile Cooper at the home of Mrs. J. C. McClary. Foster, Miss Mary Shepherd, Cook, Miss Mary Moore Roney, Miss Katherine Davis Roney, Miss Mary Early, Miss Lucile Cooper, Miss Berta Jean Penny, Miss Mary Elizabeth McKinney, Miss Lissa Holtzclaw, Mrs. Hugh Reid, Miss Winifred. A delightful ice course was served.

An interesting ball game played Saturday between the Moreland and Needmore teams, the latter was defeated by the score of 13 to 8. Taylor pitched a good game and with better support would have held the Needmore boys to much lower score. The fielding was ragged on both sides.

Letter Boxes Over the City.

Stanford looks like a city sure enough with letter boxes here and there and two delivery of mail daily. Five boxes have already been put up and others will be placed when the season demands. A big parcel post box has been ordered and this will be placed somewhere on Main street, where it will be convenient to the business men. One letter box is located at the depot and Postmaster Miss Mary Bruce has written the postoffice department asking if the mail clerks can not open this and relieve it of mail without it being brought to the postoffice and the stamps canceled. This would relieve the L. & N. agency here of much trouble, as a great many letters are taken to the depot and mailed by members of the railroad force. Another box is at the intersection of the Danville and Hustonville pikes, another at the corner of Portman and Lancaster streets, another at the corner of Logan avenue and Main street and still another at the corner of Whitley and Main. Mail will be taken from them twice daily—at 9 in the mornings and 4 in the afternoons.

Beaumont College, at Harrodsburg one of the oldest institutions for the education of women in the State, has been restored to the name it bore before the war, "Daughters' College." Youthful Jeweler.

Miss Mabel Wilkinson, the 12-year-old daughter of Mr. and Mrs. E. Wilkinson, surprised her parents the other day by repairing a clock that had not run for a long time. The time piece refused to perform its perfunctory duties and the little lady took it to pieces, cleaned and oiled it and now it works like a charm. Miss Mabel has for some time had a desire to be a jeweler and from this feat it looks like she would make a good one.

Making Runaway Race.

Col. W. P. Walton seems to be making a runaway race for the Democratic nomination for Secretary of State. Col. Walton is a runner from the word go. He has all the requisites for the proper conduct of the office and we trust this county will give him a big vote.—Blue Grass Clipper.

Following are a few of the arrivals at Crab Orchard Springs since Tuesday's issue. Back From Long Trip.

Mr. Harry Jacobs and family returned from a trip to Henderson yesterday, after an absence of three weeks. They went there to visit Mrs. Jacobs' relatives. Mr. Jacobs drove his Buick touring car and the speedometer showed 1,175 miles for the round-trip. The family went via Vincennes and Evansville, Ind., to Henderson and returning came by Terre Haute, Indianapolis, Muncie, Anderson, Ind., Dayton and Cincinnati, Ohio. "Four tank punctures was the extent of our road trip," said Mr. Jacobs. Continuing he said that the worst road he found was between Stanford and Wayneburg, Grant county, and the best between Milledale and Hamilton, Ohio. "Ten miles of that road was like a plank walk and believe me we almost flew over it," said Mr. Jacobs, who, by the way, knows what flying means. On the trip the car averaged 15 miles to the gallon of gasoline and Mr. Jacobs bought the Rockefeller product all the way from 16c to 16c. Miss Carrie Daylis, a sister of Mrs. Jacobs, returned with them and will spend some time in the home.

C. O. Baptist Church Gets Money.

The Crab Orchard Baptist church has received from the government \$840 that has been due since the civil war. The debt was for a century old, but on the theory that it is better late than never to liquidate indebtedness, the payment of it is supposed, satisfactory. It came at an opportune time, for the members for some months past have contemplated repairing and refurbishing the edifice and the money will be spent to that end. A meeting of the entire membership is asked for next Tuesday night, July 27th, at 7:30. A salesman with samples of church furniture and decorations will be on hand and members are asked to be present and see him for the week ending July 21 not a British merchant ship or fishing craft was sunk by German submarines, cruisers or mines—the first instance of the kind since the war began. The British have occupied Sukesh-Shekyuk, on the Euphrates river in the Persian Gulf. In the drive toward the Polish capital the Russians have been pressed back on the Blonka Nadaryn front, which they strongly oppose, together with the outlying defenses of Ivanogrod. Berlin declares that the army of Gen. von Wogoch has driven the Russians into the fortress of Ivanogrod, to the southeast of the capital, and is now closely investing the stronghold with its twelve forts—nine on the right bank of the Vistula and three on the left bank of that river.

There is little in the official statement issued from general headquarters at Petrograd to contradict the claims set up by the Austro-Germans, but there are indications in all of the communications that fighting of desperate nature is in progress at various points, and that the Russians, though falling back, are resisting with determination.

Rome reports the failure of the Austrian attempt to cut off the Italian left, and a "noteworthy advance" by the Italian forces at several points.

Lincoln County M. D.'s Meet Here.

The Lincoln County Medical Society met at the office of Dr. J. E. Peyton Tuesday and went through with an interesting program. One of the good things on it was a paper on Pellagra by Dr. J. B. Smith, of McKinney. It showed much thought and research and was liberally discussed. A number of talks were made by the various members and later a good dinner was enjoyed at the St. Asaph Hotel. Those present were Dr. A. W. Cain, of Somerset, counselor for this district, Drs. Alcorn, Carpenter, Childers, Chase and Weddle, Hustonville; Laswell, Kings Mountain; Smith, McKimney; Caldwell, Wayneburg; Pipes, Moreland, and the local physicians.

Backing Owsley to the Limit.

The Advocate makes this frank admission, and while it is full of truth, it is rather surprising that it does so, as heretofore that paper has been such a staunch supporter and extravagant booster of its home candidate: "Lincoln county people are backing Hon. John Sam Owsley to the limit in his race for Commonwealth's Attorney."

Catalogue Pleases Him.

Praise from Sir Rupert is praise indeed. Charlie Cecil, the Danville grocer and implement man, said to Dr. T. W. Pennington while in that city the other day: "I am highly pleased with my advertisement in the Knights of Pythias Fair catalogue and the booklet is one of the very prettiest I have ever seen." And we might add that that is what they all say.

Youthful Runaway.

Little Henry Winston Phillips, three years of age, the son of Dr. and Mrs. Winston Phillips, of Junction City, was found by the L. & N. men hidden behind the stove in the cabin. He had boarded the train at Junction City in front of his home. He was carried to Parkville and returned by the next train.

"Safety First" Holmes is Dead.

Joseph Austin Holmes, director of the Federal Bureau of Mines at Washington and a widely known geologist, died at Denver, Colo., of tuberculosis. The deceased was a native of South Carolina. Holmes is accredited with being the originator of the safety first movement.

Boosting Fair.

Dr. T. W. Pennington, the liveliest of live wires, was here yesterday boosting the big Knights of Pythias fair at Stanford. He says the boys will have the best fair in history. As they always hold good ones, they will have to go some to break the record.—Danville Messenger.

Got Strychnine Instead of "Dope."

Hustonville Colored Woman Ships In
to Dr. Childers' Office and Gets
Fatal Dose of Poison.

The other day a colored woman slipped into the office of Dr. W. J. Childers at Hustonville, while that gentleman was out, and took a dose of medicine that resulted in her death in a few moments. Investigation showed that she had gotten hold of strychnine and that she was the wife of C. Bright and a daughter of Smith Emory, who formerly lived in this city.
The supposition is that the woman was in search of "dope," as she was addicted to the use of drugs. She was about thirty-five years old and besides her husband leaves several children.
Mr. R. M. Newland, of this city, overtook her as he was on his way to Hustonville the first of the week and complied with her request to let her ride. She seemed then to be under the influence of an opiate. In less than an hour after she got out of Mr. Newland's buggy she was a corpse.

LATEST WAR NEWS.

Diplomatic activities of the United States were suspended temporarily yesterday pending the news of the reception of the note to Germany in Berlin. President Wilson is holding up a vigorous protest to Great Britain on the interference with United States shipping until he can see his way clear in the German situation. If the situation does not improve an extra session of Congress may be called.
An interesting fact in connection with the German submarine warfare is contained in a dispatch from London which says that for the week ending July 21 not a British merchant ship or fishing craft was sunk by German submarines, cruisers or mines—the first instance of the kind since the war began. The British have occupied Sukesh-Shekyuk, on the Euphrates river in the Persian Gulf. In the drive toward the Polish capital the Russians have been pressed back on the Blonka Nadaryn front, which they strongly oppose, together with the outlying defenses of Ivanogrod. Berlin declares that the army of Gen. von Wogoch has driven the Russians into the fortress of Ivanogrod, to the southeast of the capital, and is now closely investing the stronghold with its twelve forts—nine on the right bank of the Vistula and three on the left bank of that river.

Dr. Ganfield Here Yesterday.

Dr. Ganfield, the new president of Centre College, Danville, was in the city yesterday, accompanied by Prof. Crooks, of the faculty of that institution. The gentlemen were here in the interest of the college and secured the promise of quite a number of young men for matriculation this fall. The belief is general that under the presidency of Dr. Ganfield the grand old institution of learning will take on new life and that next session will be the best in years. The new gymnasium has been completed and a number of improvements will have been made before college opens in September.

Youthful Jeweler.

Miss Mabel Wilkinson, the 12-year-old daughter of Mr. and Mrs. E. Wilkinson, surprised her parents the other day by repairing a clock that had not run for a long time. The time piece refused to perform its perfunctory duties and the little lady took it to pieces, cleaned and oiled it and now it works like a charm. Miss Mabel has for some time had a desire to be a jeweler and from this feat it looks like she would make a good one.

Making Runaway Race.

Col. W. P. Walton seems to be making a runaway race for the Democratic nomination for Secretary of State. Col. Walton is a runner from the word go. He has all the requisites for the proper conduct of the office and we trust this county will give him a big vote.—Blue Grass Clipper.

Back From Long Trip.

Mr. Harry Jacobs and family returned from a trip to Henderson yesterday, after an absence of three weeks. They went there to visit Mrs. Jacobs' relatives. Mr. Jacobs drove his Buick touring car and the speedometer showed 1,175 miles for the round-trip. The family went via Vincennes and Evansville, Ind., to Henderson and returning came by Terre Haute, Indianapolis, Muncie, Anderson, Ind., Dayton and Cincinnati, Ohio. "Four tank punctures was the extent of our road trip," said Mr. Jacobs. Continuing he said that the worst road he found was between Stanford and Wayneburg, Grant county, and the best between Milledale and Hamilton, Ohio. "Ten miles of that road was like a plank walk and believe me we almost flew over it," said Mr. Jacobs, who, by the way, knows what flying means. On the trip the car averaged 15 miles to the gallon of gasoline and Mr. Jacobs bought the Rockefeller product all the way from 16c to 16c. Miss Carrie Day

POLITICAL ANNOUNCEMENTS

The Interior Journal is authorized to announce the following candidates for office, subject to Democratic primary, Aug. 7th, 1915.

For Circuit Judge, C. H. HAMPTON, of Mercer County.

For Commonwealth's Attorney, CHAS. C. FOX, of Boyle County.

For Representative in Congress, E. J. HUNTER, of Boyle County.

For Representative in Congress, J. S. OWSELEY, Jr., of Lincoln County.

For Railroad Commissioner, W. H. KLAIB, of Fayette County.

For Circuit Clerk, JESSE P. WARREN.

For Representative in Legislature, MARSHALL E. NEWLAND.

For Representative in Legislature, W. G. GOODE.

When a gathering of the governors of the several states was called in Washington City some years ago, enthusiastic predictions were made for the future of these meetings. Some people thought that the "house of governors" might become of almost as much importance as another house of Congress, by uniting the States in the movement for uniform legislation.

The proceedings of the "house of governors" due to meet in Boston in August will not suggest that these hopes have been in any degree realized. The governors will hold a pleasant and informal debating society, at which the work of their trade will be discussed, much as when the editors or the photographers or the manufacturers get together to talk over their mutual interests.

This does not mean that a governor of a state is not an important personage. Probably he is more so than he was twenty years ago. The old style executive was supposed to adopt a dignified seclusion, and recommendations in an academic way. Commonly the legislature dropped them in the waste basket. These are more important days. The people want to get things done. They look at a governor as their executive agent for the relief of a thousand needs, most of which are out of his province altogether.

The failure of the "house of governors" as a positive national force does not indicate that the governors as a whole are a group of mediocre men. Rather the difficulty is the intense individuality of all of our local communities.

Legislative bodies, from the United States senate down to a city council, are jealous of their own prerogatives. They are suspicious of causes and movements originating at a distance. The fact that the "house of governors" wanted a certain thing might hurt the passage of a proposed act in many legislatures, rather than help it.

Whether hot weather has any connection with crime or influence on the criminally inclined is a question which will never be definitely determined, but there seems to be an epidemic of rash deeds during mid-summer of every year. This is the season when we may expect sudden death in any number of ways. Statistics have probably never been compiled to show the favorite method of suicide, but drowning is not unpopular, while shooting in the head, always a favorite means employed by the life-weary, is less used at this time than at other seasons. This indicates that even in the matter of suicide, the comfort of the person who is seeking an easy way out of the perplexities of life is considered somewhat by that person himself. When the temperature is flitting around the one hundred mark, drowning doesn't seem altogether bad; in fact it is calculated to make a rather strong appeal to one who has made up his mind that this life is not worth the living and has determined to end it. While this phase of mid-summer madness may be partially accounted for, it is impossible to give reasons for other horrifying deeds, except on the grounds of weather insanity. It is quite time that the doctors and the psychologists were working into the matter and trying to explain the meaning of it all.

That enormous crowd that heard Hon. H. V. McChesney at the court house on Wednesday evening was impressive of two facts, viz: The people want state-wide prohibition and it pays to advertise in the Interior Journal.

Going to S. S. Convention.

Some twenty-five members of the colored Baptist Sunday School of this place went to Lancaster this morning to attend the Sunday school convention in session at that city.

In Jail for House-breaking.

McKinley Young, age about 17, was placed in jail Thursday on the charge of house-breaking. He was arrested by Constable M. Murphy and brought here. He lives in the Southern end of the county.

Gen. Cattanza announced yesterday that in the future he would hold no intercourse with foreign nations who did not have a regularly accredited diplomatic representative. This is not expected to affect the informal relations now existing with the United States.

Claiborne Walton and Bryan Perkins went to Paint Lick Wednesday and helped the ball team of that city defeat Lancaster twenty to three.

The Casey County News says that Granville Lutes, who recently moved back to this county from Florida, has bought a farm near Middleburg and will move to it soon.

Louisville, Ky., July 21.—Mrs. Frank Pettis, wife of the well-known assistant chief electrician of the Louisville and Nashville railroad, who resides at 800 Camp street, Louisville, is among the many women who have found speedy relief from serious illness by the use of Tanlac. Mrs. Pettis said:

"I have been in a nervous, run-down condition for some time. My digestion was very poor and I have difficulty in eating solid foods. I was so depressed in spirits at times that I almost had a dread for the future."

"Tanlac proved to be just what I needed. The medicine acted like a general tonic on me. I am improved in every way, and I very cheerfully endorse Tanlac."

Tanlac is sold in Stanford by the Penny Drug Store.

Kentucky To Aid In Alfalfa Growth.

To enable the farmers of this state to raise alfalfa and crimson clover as successfully as the farmers of other states, Commissioner of Agriculture Newman has decided to purchase tons of bacteria culture to be distributed to the counties of Kentucky in proportion to their acreage. Application for bacteria culture must be made to the Department of Agriculture, which will be ready for distribution by August 10. It should be put into the ground by August 20. Only enough of the bacteria will be given to the farmer securing it to inoculate one acre of his land, and then he can use the soil from this inoculated acre to distribute the bacteria not only over his own farm but to supply the community in which he lives. The production of alfalfa and crimson clover is on the increase in this state, as there is ten times as much alfalfa grown in Kentucky today as there was twenty years ago. Newman estimates that there are 25,000 acres planted in alfalfa this year.

Wonderful Blood Remedy That Works in the Tissues

The Very Latest Theory About How and Why the Blood is Disordered.

S. S. S. Means Pure Blood Which Insures Long Life and Health.

The great experts in Chemistry and Physiology now declare what has all along been contended by the Swift Laboratory—that the germs of blood disorders find lodgment in the interstices of the tissues.

And herein is where S. S. S. goes to work rapidly, effectively and with wonderfully noticeable results.

This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the nutritive elements of wheat, roast beef, and fats and the sugars that make up our daily ration.

As a matter of fact there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment. That is why it regenerates the blood supply; why it has such a tremendous influence in excreting excesses, rash, pimples, and all skin afflictions.

The Man Who Took Kentucky Schools Out of Politics.

Mr. Eubank is editor of the Southern School Journal, the official organ of the Department of Education and of the Kentucky Educational Association. His editorial utterances have had great influence in shaping public opinion in school affairs, and the measures which he has proposed and which have been put upon the statute books, have proved most beneficial to the school system.

Notably, his County Board law, now in force, makes possible non-partisan board for the control of the schools in each county. It is possible, because of this law, for each county to provide an efficient elementary and high schools for its rural children as are found in the large cities. Mr. Eubank is a candidate for the Democratic nomination to the office of Superintendent of Public Instruction. The school people are supporting him strongly in this race for they recognize him as one who always works for the greater welfare of the children.

This is to prove that you can't judge tires by looks.

Here are two Goodyear tires, seemingly identical. But one is built like many of its rivals. Goodyear extras are omitted. The other has those hidden values. And these unseen extras, on this year's output, will cost us \$1,635,000.

This year's betterments alone add to our cost \$500,000 yearly. Yet our 1915 price reduction saves our users about five million dollars.

No Price Excuse

This is not a price excuse. Goodyear prices have been fairly racing down. Our late big reduction made the third in two years, totaling 45 per cent. No equal tire can compete.

McCHESNEY THE MAN FOR VICTORY IN NOVEMBER

Temperance Vote in Country Districts and Mountains Will More Than Make Up For Liquor Men Who May Bolt—Elections of Last Few Years Prove This

The liquor candidates and the liquor brigades in their desperate efforts to stem the rapidly increasing strength of Mr. McChesney, and to prevent, if possible, what seems to be his probable nomination as the Democratic candidate for Governor in the August primary, have been industriously circulating the report that if he is nominated he can not be elected in November. They base this statement upon the idea that the whiskey and beer Democrats would not vote for him, or for any other dry Democrat, if he is nominated. In other words, they admit that, although the liquor Democrats will take a very active part in the primary against McChesney, they will not vote for him, if he is nominated, to bolt his nomination and vote for the Republican ticket. There is some truth in that threat, for that is just what they have been doing for many years. Most of them do not seem to be bound, by any sense of honor or obligation, to support the nominee after they have taken part in the primary. Admitting to be true their purpose to bolt if Mr. McChesney is nominated, and that is what this talk amounts to when they say he could not be elected, let us see whether or not it is to be feared.

The people of Kentucky remember very well that the same kind of talk and threats were used against Governor Beckham. Mr. Stanley, the liquor candidate for the Senate then, as he is the liquor candidate for Governor now, used the same argument; so did the same liquor newspapers. What this argument amounted to in effect was that, if Beckham was nominated, the whiskey and beer Democrats would bolt him, while if Stanley should be nominated he would get all of those votes and also the votes of the temperance Democrats, who would be too honorable and too good Democrats, to bolt the party nominee after they had taken part in the primary. The result of that primary should be fresh in the memory of Kentucky Democrats. With all the power and wealth of the distilleries, the breweries, and the saloons back of him, Stanley was defeated by a substantial majority. Beckham was nominated and a large majority of the liquor Democrats did bolt him in the November election. It is necessary only to look at the returns from that election to demonstrate it.

In all of the cities and liquor centers Beckham ran considerably behind the

rest of the Democratic ticket. Even in Louisville, which he carried by a large majority, he ran nearly 2,500 votes behind the majority of the Democratic nominees for Congress. In Kentucky county (city of Covington) he received 1,883 votes less than the vote for the Democratic nominee for Congress. In Campbell county (city of Newport) he received 1,532 less; in Indiana county (city of Lexington) which he should have carried by 1,200, he carried by only 197; and so it was in every city where there was a liquor vote. Even in Henderson county, Mr. Stanley's home, Governor Beckham ran about 200 or 250 votes behind the ticket, even though Stanley made a speech there before the election, ostensibly for the ticket, but it happened that in the five or six places where he did speak in that campaign, Beckham, the nominee, lost votes, for Stanley's speeches were not intended to help him. Notwithstanding all of this defection and bolting, Governor Beckham won over his Republican opponent, Governor Wilson, by 32,000 majority, the largest majority given to any Democratic candidate in 25 or 30 years. So, the threat of Mr. Stanley and his whiskey and beer supporters proved to be futile and empty.

It is the same old trick they are trying to work again on the Democrats this year. But it will fail, for the unthinking or the ignorant. Mr. McChesney is undoubtedly the strongest candidate the Democrats can nominate for Governor. He will be elected beyond doubt, he may lose many very strong Democrats in the liquor centers, just as Beckham did last year, but he will more than make it up in the country districts and in the mountains. He is receiving the assurances of thousands of temperance Republicans and Independents that they will support him, if he is nominated over Mr. Morrow, who is well known as a wet man. It is no use, for Mr. Stanley to argue that, because the Republicans will nominate a wet candidate for Governor on a wet platform, the Democrats should do the same thing, and get into a race with the Republican ticket to see which can bid the highest for the whiskey and beer votes of the state. The people of Kentucky are not going to elect as Governor of the state a liquor trust man, and Mr. Stanley might as well stand aside. The people know that their chance to beat the wet Republican candidate is with Mr. McChesney as the Democratic candidate. He will be nominated and elected.

John Lutes sold to Chris Camenich 60 stock ewes at \$6.
E. T. Pence, Jr., bought of John Rigby 32 stock ewes at \$6.25.
Harry Hill bought eight shoats from John Rainer at five and a quarter cents a pound.

J. H. Manning, out on Route 1, has a ten-acre field of Sardin clover that is the finest seen in this county. It measures nine feet.

Henry Hester had 30 acres of wheat to yield 30 bushels. The other portion of his crop, some 30 acres, yielded only about half that amount per acre.

Harve Poynter, of Walnut Flat, was in Pulaski county several days ago and bought a lot of sheep at \$5.51 and some hogs at 7c.
George Keller, Jr., of New Orleans bought of Allen S. Edelen, of Burgin, a combined mare for \$275 and a Bohemian King saddle for \$562.

J. G. Burnside, of Point Leavelle, recently sold 50 thoroughbred Kentucky Red Berkshire hogs to E. Woods, of Lancaster, at 8 cents a pound.

Harve Poynter, of Walnut Flat, tells us that the greater portion of his wheat averaged 28 bushels, but a small field only measured up 15 bushels to the acre.

Caywood & McClintock, of Paris, have purchased recently from Bourbon farmers 1,500 head of export cattle averaging from 1,350 pounds to 1,500 pounds, at prices ranging from \$8 to \$9 per hundred pounds. The entire purchase will represent an outlay of more than \$181,000. The delivery of these purchases will be made in August, and the stock will be shipped to New York City for export. The same firm has made the following sales of stock cattle to Bourbon farmers. To John T. Collins, of North Middletown, fifty head of 1,000-lb. and cattle at \$8 per hundred pounds; to W. M. Jones, of near North Middletown, forty-one head of 775-pound cattle at \$7.25 per hundred pounds; to B. T. Mattox, of Bourbon, twenty-two head of 700-pound cattle at \$7.50 per hundred, and to Warren Rogers, of Bourbon, eleven head of 950-pound cattle at \$8 per hundred.

WOMEN'S WOES.

Stanford Women Are Finding Relief At Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Keeping the kidneys well has spared thousands of women much misery. Read of a remedy for kidney ills that is endorsed by people in this locality.

Mrs. A. Camden, Preachersville, Ky., says: "I suffered intensely from kidney complaint. When I stooped, I could hardly straighten. Dark spots often floated before my eyes and my head pained me until I was crazy. A neighbor told me about Doan's Kidney Pills and I got a box. They helped me from the first and I am now free from kidney complaint."
Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Camden had. Foster-Milburn Co., Buffalo, N. Y. 59-11.
